roqora ai

AI PLATFORM FOR AI PRODUCTS · SERVING TEAMS AND LEARNERS WORLDWIDE

Specialized AI that does the real work.

Focused AI products for professional learning, school, enterprise architecture, and companionship, each designed around a real outcome.

ABOUT ROQORA AI

Engineering-first. Outcome-driven.

roqora ai is an AI platform for developing AI products: a shared foundation of engineering, design, and responsible-AI practices that turns complex professional work into practical, trustworthy products. We are a product-minded team building for people and organizations around the world, with five focused products in four areas. All are live in beta, and each has its own sign-in.

FOUR AREAS, FIVE PRODUCTS

PROFESSIONAL LEARNING

AI and cloud skills, built hands-on.

a-2-ai labs · micourse ai

SCHOOL

Calmer studying for Classes 9–12.

mindflits ai

ENTERPRISE

Architecture work, with evidence.

inarch ai

COMPANIONSHIP

A helper you can talk to.

voicereflect ai

OUR METHOD

01 **Understand**
Start from the real context: your systems, your syllabus, your goals.

02 **Visualize**
Make the structure visible, so people can reason about it together.

03 **Validate**
Check every answer against evidence and official sources.

04 **Improve**
Leave with a better target state and a clear next step.

PRINCIPLES BEHIND EVERY PRODUCT

Built for one outcome
Each product solves a clearly defined problem instead of being a general chatbot.

Evidence over guesswork
Answers cite their sources, and findings link back to the evidence behind them.

People stay in control
AI assists. People make the consequential decisions.

Independent by design
Every product has its own sign-in and its own data. Nothing is shared between them.

AI and cloud skills, built hands-on.

a

AI ENGINEERING AND AWS CERTIFICATION

a-2-ai labs

Learn AI engineering by building it.

Structured AI engineering programs and certification paths with guided, hands-on builds that run in your own AWS account. For developers, cloud and data engineers, architects, and graduates.

- 24 AI engineering programs and 5 applied projects, from LLM chatbots to multi-agent assistants and RAG pipelines
- AWS Cloud Practitioner path: 10 parts, 16 hands-on labs, 132 practice questions
- AWS Solutions Architect Associate path: 16 hands-on labs and two practice exams
- GraphRAG Practitioner: 11 parts, a 158-question exam pool, and a certificate
- Labs run on your own AWS account and are checked automatically
- Free lesson preview, no account needed

m

ENGINEERING PROFESSIONALS

micourse ai

Adaptive courses built on evidence, not completion.

An AI mentor learns your role, stack, strengths, and gaps, then builds a course just for you. A second AI reviews every course before you see it.

- Mentor-built learner profile
- Courses generated from your goal
- A comprehension check after every lesson

micourseai.roqora.com

Calmer studying for Classes 9–12.

m

AN AI STUDY PARTNER · STUDENTS, CLASSES 9–12 · NCERT AND CBSE

mindflits ai

A calmer AI study partner.

Read your NCERT textbooks, work through ideas with an AI tutor that cites the book, and see exactly what to practise next.

- NCERT textbooks for Classes 9–12, readable page by page
- A simple rhythm: read and understand, practise and reflect, revisit and grow
- An AI tutor that answers from the textbook and says so when no source supports an answer
- Daily loop: check in, plan, learn, quiz, and repair mistakes
- CBSE-style practice questions with hints and mistake tracking
- Free to start, no credit card

01
Read and understand

02
Practise and reflect

03
Revisit and grow

ENTERPRISE

Architecture work, with evidence.

i

ARCHITECTS AND PLATFORM TEAMS

inarch ai

AI drafts the architecture. You approve it.

Design on AWS, Azure, and GCP with AI agents that draft, validate, and edit. Every change is staged as a reviewable diff, and every version is scored against 22 deterministic rules across security, reliability, scalability, performance, cost, and AI.

- 0–100 score against 22 rules
- Every change reviewed as a diff
- Cloud Studio and AI Studio
- Free plan available

inarchai.roqora.com

COMPANIONSHIP

A helper you can talk to.

v

EVERYONE

voicereflect ai

A voice companion that helps you think.

Talk it through by voice with a companion, mentor, check-in, or assistant persona, and come away with clear next steps. In English and Indian languages.

- Four voice personas
- Natural voice conversations
- Hindi, Telugu, Tamil, Kannada

QUESTIONS, ANSWERED

Which products can I use today?
All five are live in beta. Open any product and sign up directly on its own site.

Do I need one account for every product?
No. Each product has its own sign-in, its own data, and its own billing.

Is roqora ai available worldwide?
Yes. Products are available globally, and our team is reachable in India and the USA. mindflits ai is designed for the Indian CBSE curriculum; the other products work anywhere.
